

NATURE'S FINEST
ESSENTIALS

We believe in balance

ABOUT US

At Bo it's our endeavour to keep alive the ancient philosophy of balancing body, mind and soul, Bo believes in presenting the world with nature's finest and purest range of products for the pharmaceutical, cosmetic, food & beverage and spa industries. Bo is one of the pioneers of manufacturing and supplying natural essential oils, spice oils, concretes, absolutes, natural Indian attars, herbal extracts, fragrance oils and floral hydrosols.

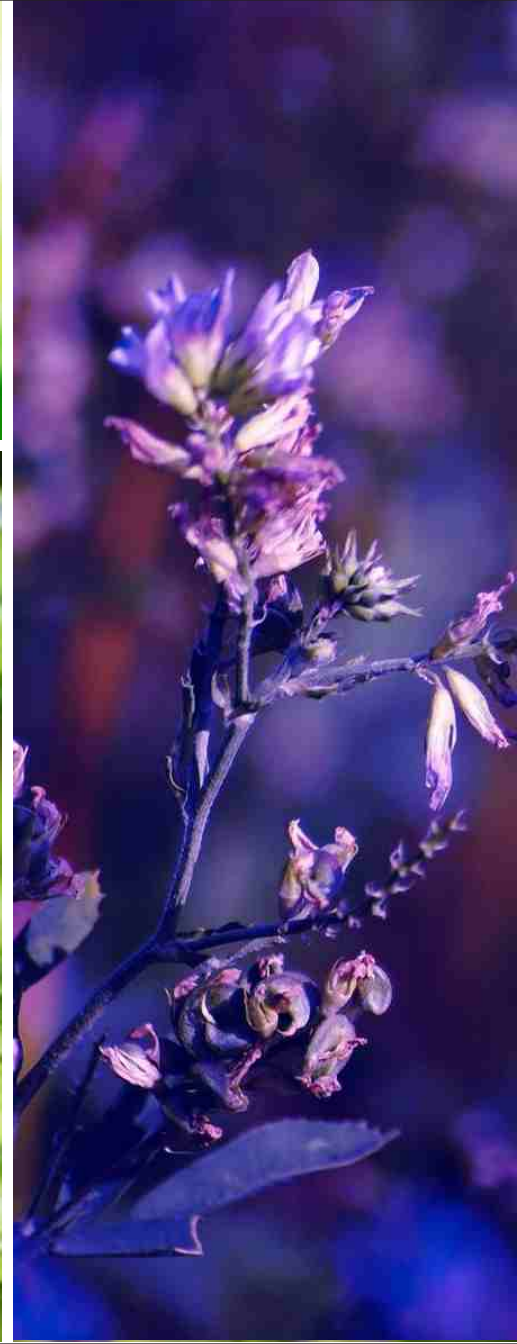

With the belief of replenishing wellness and spreading healing, Bo is dedicated to provide its customers with ethereal aromatherapy essential oils, floral waters, herbal extracts and other natural products, which are absolute sensory delights apart from having potent healing characteristics.

Our mission is to present the gift of nature in its truest form.

“Bo has filled a long- standing requirement for a quality natural cosmetic raw materials supplier delivering quality products globally at great prices! I especially love their essential oils, which are one of the best I have ever used!”

Margit Baader, Alternative Healer & Aromatherapist (Germany)

Nature’s supreme nectar

ESSENTIAL OILS

Essential oils are the “soul” of a plant material. They are renowned in traditional and modern therapy as having therapeutic properties due to the high quantity of active ingredients present in them.

Our essential oils come from well cultivated and wild grown plants, which have been carefully selected to maintain highest standard of purity and quality. The synergies of essential oil constituents in their natural state are easily adapted to human physiology to provide desirable effects through their use in pharmaceuticals and cosmetics.

Elixir of life
CARRIER OILS

Product list

Carrier oils are extremely significant as they are derived from the fatty portion of plants such as the seeds, kernels and nuts and thereby comprise of essential fatty acids, minerals and vitamins making them truly an elixir of life.

Carrier oils aka vegetable oils / base oils are used extensively in aromatherapy and cosmetics for diluting essential oils for application. They provide radiance to the skin and are often used to heal irritated and sensitive skin. Bo carrier oils are the purest grade - unrefined and cold-pressed oils, which offer the greatest health benefits.

BOTANICAL EXTR ACTS

Botanical extracts are the secret ingredients to the wondrous beauty products specifically skin and hair care products. It is the presence of botanical extracts that makes these products so indispensable to the customer. Our botanical products are 100% natural and are a healthy natural alternative to some of the synthetic ingredients currently in use.

All our botanical extracts are powdered and can be made oil or water soluble, as required.

“A great collection of essential oils, carrier oils and other materials. I especially loved the lavender (Bulgarian) essential oil. Definitely one of the best I have ever tried. Smelled so great in my bath salts!”

Nadia Khan, Home Spa Owner
(United Arab Emirates)

Breathe in a bit of life

FRAGRANCE OILS

We at Bo understand that each individual has a unique olfactory sense that is why we choose premium quality of fragrant oils to cater to the uniqueness of each being. Fragrant oils are not essential oils as they are synthetically compounded. However, Bo fragrance oils are made using more than 80% natural materials to offer only high quality fragrances to our customers.

Within our range, you will find an excellent assortment of scents with everything ranging from floral fragrances (Floral Bouquet, Lilac, English Lavender and more) to fragrances from the fruit families (Apple Green, Melon Berry, Peach Blossoms and more). Bo also offers high quality premium fragrances like Chanel No 5, Dolce & Gabbana and more.

Integrated wellness

LIQUID EXTRACTS

Bo makes premium quality alcohol-free liquid extracts from the highest quality raw materials. These are made either oil soluble or water soluble as per customer's preference and end-usage requirements. For us each client is special therefore we also provide customized solutions while supplying liquid extracts and keep a record of the same to enable reproduction of similar extracts at a future time as well. Our belief is to provide integrated wellness therefore we only use superior quality food grade solvents for the extraction process.

Essence of spices

SPICE OLEORESINS

Our spice oleoresins are made from the purest raw spices grown in the Spice belt of India. The oleoresins are derived by using cutting edge technology which makes our spiceoleoresins special and rare; spiceoleoresins can be made oil soluble or water soluble depending on the customer's specification.

Their strong flavour and intoxicating aroma makes them very popular in the food and beverage industry for flavoring of food products.

Heightened experience of tranquility

HYDROSOLS

Our floral waters are truly natural and incredible refreshing, they are exclusively imported from all over the world and are free from preservatives, alcohols or emulsifying agents. It's because of their versatile and invigorating nature that they are used in various beauty products. Their restorative properties makes them ideal for direct application to the skin, they are used as deodorants, in hair care products, as tranquil fragrance and also for stimulating baths and massages.

Refreshingly natural

MINT PRODUCTS

Bo unique Mint Division produces an extensive range of Mint products and Mint Isolates for the fragrance and flavour industry.

The basic raw materials for these are grown on contractual basis by our farmers in Uttar Pradesh (India). They grow exclusive mints such as *Mentha Arvensis* (Japanese mint), *Mentha Piperita* (Peppermint) and *Mentha Spicata* (Spearmint). These are used in manufacturing myriad products such as toothpastes, chewing gum, mouth fresheners, tobacco products like cigarettes, and even fine fragrances.

Silent Healer

CLAY/ WAX/ OTHER PRODUCTS

Clays are nature’s silent healers which have innumerable medicinal benefits as they aid in promoting health and wellness. Clays are rich in nutrients and minerals which help in detoxification and healing. We offer naturally processed clays which are exclusively imported from Morocco and France. Our internationally acclaimed clays provide an unforgettable spa experience; because of their freshness and purity, soap makers find our clays indispensable.

We also provide a comprehensive product offering to our clients in the Pharmaceutical, Cosmetic and Food & Beverage industry. As a result of which we have a myriad base of unique and exotic products which are exclusively sourced from the international market. Products like cosmetic grade butters, fine clays, exotic raw materials like Dead Sea salt and essential oil isolates like methyl chavicol, thymol and linalool for the perfumery industry, are truly natural and unique.

17. Aleovera Gel Thick

“Honestly, at first I was a bit hesitant in dealing with a raw material supplier online for my spa brand. But after ordering a small amount as samples for the different materials I required, I am satisfied and happy at finding such nice quality at such low prices. I can safely say that Bo is my supplier of choice for all my future requirements!”

Susan Parker, Spa Boutique Owner
(United States of America)

Packaging

Bo is dedicated to provide its clients with state of the art packaging options while ensuring international packaging standards. We provide various options for packaging starting from small to bulk packaging, depending on the client's requirements.

OEM

Small Packaging is available in 2 options namely glass bottles and aluminium bottles.
Glass bottles: These are preferred by OEM buyers who are looking to retail their final product in the market. Sizes varying in the range of 10-250ml are available.

Aluminium Bottles: These are preferred by small time essential oil buyers for their own use/business. Sizes varying in the range of 50-500ml are available. We provide aluminium bottles with PET lining; these bottles do not react with the content inside them and ensure that there is absolutely no leakage of content.

Bulk Packaging

Bulk Packaging is available for large quantity material. This type of packaging ensures safe transit of materials at minimum cost. We use all UN compliant packaging material. We provide the following options in bulk packaging

Aluminum Bottles of 1 litre and 5 litre are available with PET lining, these bottles do not react with the content inside them and are leakage proof.

Galvanized Iron (GI) drums, these are available for essential oils, options of 25 kg and 180 kg sizes are present.

HDPE plastic drums are available for the volume of 25 kg and used exclusively for carrier oils.

Glass Bottles	Aluminium Bottles
10 ml	50 ml
30 ml	100 ml
60 ml	250 ml
100 ml	500 ml
120 ml	1 liter
250 ml	5 liter

HDPE Drums	Iron Drums
25 liter	25 Liter
	180 Liter

Infrastructure

Our Infrastructure includes Steam Distillation units built out of SS316, Solvent Extraction units which use food grade n-hexane and other solvents, High quality expellers,

High end fractional distillation units and our world class laboratory with Gas Chromatograph, Mass Spectrometer, Refractometer and other instruments.
